**EYE Hortilux™ EN HPS lamps are Environmental Protection Agency (EPA)/TCLP compliant as non-hazardous waste in that they are completely lead free and contain less mercury than standard HPS lamps.**

### REDUCED MERCURY

In its Mercury Study Report to Congress, the U.S. Environmental Protection Agency (EPA) concluded that mercury might pose a risk to some adults and wildlife populations that consume large amounts of fish that is contaminated by mercury. The EPA requires controlled disposal of HID lamps containing small amounts of mercury, unless they meet stringent TCLP test requirements and are classified as non-hazardous waste. To help protect the environment, EYE Lighting has reduced mercury in EYE Hortilux™ HPS EN lamps by as much as 80% and are rated EPA, TCLP compliant as non-hazardous waste.

### LEAD FREE

Lead has long been recognized as a harmful environmental pollutant. In late 1991, the Secretary of the Department of Health and Human Services called lead the "number one environmental threat to the health of children in the United States." EYE EN Lamps are completely lead-free!
